

Artist Signature SNARE DRUM SERIES

Laser-engraved with hand-drawn pieces of his tattoo flash, Corey Miller's snare features a white powder-coated, 6.5x14" steel shell that performs with high end brightness and power. Features chrome tube lugs and 2.3mm triple-flanged hoops.

Corey Miller

6.5x14" [LW6514CM]

A truly personalized instrument, Carl's "Venus" is crafted for volume and intricate clarity. The beaded-green 3.7x14" shell is lacquered green for a stunning look, with brass-plated separate-tension tube lugs and die-cast hoops to offer visual contrast. More than a "Power-Piccolo", each model is hand-signed by this drumming great.

Signature Snare Drum

3.7x14" [LW0414CP]

JOEY KRAMER
"HIT HARD"
Signature Snare Drum

6.5x14" [LW6514JK]

A tribute to a true drumming icon, Joey's snare features an intricately-engraved 6.5x14" black nickel-over-brass shell. In contrast to the white hardware on Joey's kit, the tube lugs and die-cast hoops are black-nickel plated to match the shell. Hand signed and limited in production during 2011.

JIM RILEY

8x14" [LW0814JR]

Ornamented with a laser-engraving that is true to his roots, Jim Riley's snare produces plenty of projection and SNAP with full-bodied balance thanks to an 8x14" Stainless Steel shell. Perfect for a wide variety of applications, from studio to stage, and featuring black-nickel tube lugs and die-cast hoops.

Jay Lane [Primus]

Legendary, player approved sound. Ludwig pioneered the black-nickel over brass shell concept in the early 1920's, setting a standard that all others would follow. Black Magic Snare Drums bring that signature sound and quality to a whole new playing spectrum, with four models to satisfy any playing situation. Accentuated with matching tube lugs and die-cast hoops, Black Magic snares deliver classic tone that drummers have come to expect from Ludwig.

7x13" [LW0713]

Built to focus on tight, crisp projection, the 7" depth on this 13" model adds full-bodied sonic elements to its powerful attack.

5x14" [LW5514]

A standard model for everything from Pop to Jazz, the 5x14" produces pure, articulate snare tone with bright overtones.

6.5x14" [LW6514]

For higher-volume situations, the 6.5x14" has a fat, open sound without sacrificing tone or sensitivity.

8x14" [LW0814]

Inspired by the Ludwig Coliseum, the 8x14" is the ultimate in low-bodied power and projection.

6.5x14" [LW6514S]

Yet another in a series of Ludwig firsts, Black Magic Stainless models incorporate a mirror-polished, 1.5mm stainless steel shell for bright, cutting attack and mid-range overtone. Black Magic's black-nickel tube lugs and appointments provide sharp visual contrast, and tonal range is broadened with 2.3mm power-hoops.
