**CARL PALMER'S ELP LEGACY  
ANNOUNCES 2<sup>nd</sup> LEG OF US TOUR!  
SHOW WILL PAY TRIBUTE TO  
EMERSON LAKE & PALMER  
WITH A 50<sup>th</sup> ANNIVERSARY CELEBRATION.**

After his successful Fall 2021 Tour, legendary drummer and musician, Carl Palmer will return this January to the US with his second round of live shows since 2019. These shows, which will feature only Palmer and his band continue the acclaimed musician's return to live performances since the onset of the pandemic. The tour will kick off on January 27<sup>th</sup> in Jacksonville, FL, with three previously postponed dates appearing with The Alan Parson Live Project in Florida. Those appearances will be followed with a dozen additional shows featuring an evening with Carl Palmer's ELP Legacy.

"Our Fall 2021 tour was first time since the pandemic hit that we were able to be together and perform," said Palmer. "The response was remarkable and proved to us that live music was in great demand once again. The band and myself cannot wait to get out there once again for the Winter tour."

The multi-media show consists of ELP's best loved material performed to original artistic film clips and archival footage spanning ELP's career. In addition to Palmer, the band features Paul Bielatowicz on guitar and vocals; and Simon Fitzpatrick on bass and Chapman stick. Carl will even take the microphone to sing "Benny The Bouncer!"

Carl Palmer, who was voted by ROLLING STONE as one of the 10 Greatest Drummers of All Time, is a founding member of both EMERSON LAKE & PALMER and ASIA. Since he began in the business in the 1960s Carl Palmer has sold over 50 million records. In 2011 he began working with a three piece power trio; guitar, bass and drums. In 2019, the group added vocals from guitarist Bielatowicz and Palmer.

“These dates are part of a three year drive to promote ELP’s 50th Anniversary and beyond,” says Palmer, its sole surviving member. The celebration period also includes the recent release of a limited edition expansive biography of the band; a new Palmer art collection based on the five main ELP studio albums; a documentary; KARN EVIL 9, a major Hollywood film (now in development with Radar Pictures) and a special tour announcement that will reunite Palmer in performance with the late Emerson & Lake through modern technology. Explains Palmer: "There are many special celebrations of ELP that we will explain in detail in the near future. Welcome Back My Friends To The Show That Never Ends!"
